Subject: Enduris 3500 Re-Coating Capability

To Whom It May Concern,

GE Enduris 3500 features an alkoxy based chemistry. Over our 50 year history of producing silicone roof coatings, millions of square feet of successful re-coating applications have been performed. During that time, there have been no known issues with adhesion of our silicone to itself when applied as specified over a properly prepared surface.

If you have any questions, please feel free to contact me directly.

Regards,

A handwritten signature in black ink, appearing to read "Fred Wolfe", with a stylized flourish at the end.
