POND BUSTER 5000

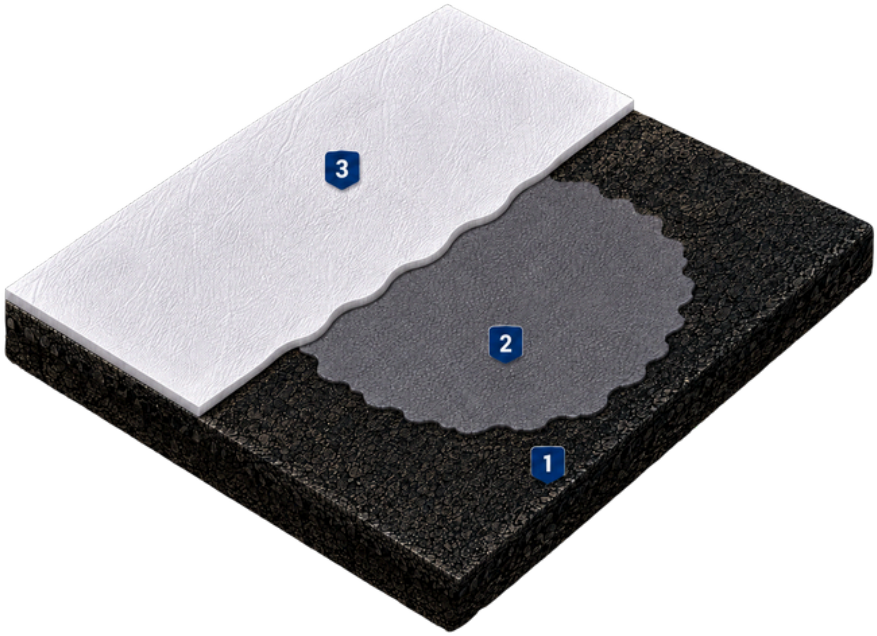

Rapid Set Roof Leveling Compound

Pond Buster 5000 is a fast-curing, extremely durable, self-leveling compound designed to eliminate ponded areas and fill low spots on flat roofs. Its two-component, 100% solids formula flows into low areas and cures into a flexible, highly durable, waterproof membrane—creating a properly leveled surface ready for continued roof restoration.

RECOMMENDED USE:

- Eliminates Ponded Areas
- Fills & Levels Low Spots
- Flat Roof Applications
- Self-Leveling Formula
- Waterproof When Cured
- Excellent Freeze/Thaw Resistance
- Exceptional Adhesion to Weathered Roofing Substrates & Concrete

WHY CHOOSE POND BUSTER 5000?

- Two-Component Roof Leveling Compound
- Fast-Curing Formula
- Self-Leveling — Flows Into Low Areas
- Flexible, Highly Durable Membrane
- Exceptional Adhesion
- Waterproof
- Extreme Water & Freeze/Thaw Resistance
- Lightweight — Weighs Less Than Water
- Easy-Mix Formula
- 100% Solids
- VOC Free
- Formulated with Environmentally Friendly Renewable Components

STEPS OF APPLICATION:

1. Prepare the Surface
2. Mix Component B
3. Add Component A
4. Pour Into the Low Area
5. Squeegee as Needed
6. Build to Required Depth
7. Allow to Cure
8. Continue the Roofing System

ELIMINATE PONDING WATER. PROTECT THE ROOF.

KEY FEATURES:

- Rapid-Set Roof Leveling Compound
- Two-Component System
- Self-Leveling Flows Into Low Areas
- 100% Solids
- VOC Free 0 g/L
- Waterproof
- Excellent Freeze/Thaw Resistance
- Flexible, Highly Durable Membrane
- Exceptional Adhesion
- Lightweight 7.1 lbs/Gallon
- Standard Color: Gray

TECHNICAL DATA:

- Solids: 100%
- VOC: 0 g/L
- Tensile Strength: ±1,000 PSI
- Hardness: 60 ± 5 Shore A
- Pot Life: 20 minutes @ 75°F
- Tack Free: ~4 hours @ 75°F
- 90% Cure: 24 hours
- Standard Color: Gray
- Coverage @ ¼": 25 sq. ft. per 4-gal kit

RESTORE. LEVEL. PROTECT.

Pond Buster 5000 provides a fast, durable solution for correcting low areas and eliminating ponding water before continuing with a roof restoration system.
